

Shining Our Light at Community Airport Day!

God does amazing things. We are very thankful for the positive relationship that MATA has built over the years with the city of Arlington and the airport staff. Amazingly we regularly get invited to participate within a government sponsored event, funded and promoted by the government and presented on government owned property. We are free to share about Jesus and missions with anyone who visits our displays! On the last Saturday of September two of us from MATA did exactly that within an event that attracted hundreds.

New Private Pilot & Family Depart for Africa.

We often communicate that the airplane is simply a tool that is used for missions in spreading the gospel of Christ farther and faster. Recently, Miles Ostrander earned his Private Pilot License only a couple of days before he, his wife Emilee, & daughters Bella, Sophia and Aimee traveled to the highly remote village of Minembwe in the Congo to serve at Eben-Ezer University. They already have an established mission of ministry outreach which includes the training of pastors and nurses! Miles has a vision to eventually use aviation as a practical means of transportation for accelerating their ministry.

Praises: Praise Him for the safe arrival of new babies to both a staff family and student family at MATA! Praise Him for MATA alumni John Troyer who passed his "Inspection Authorization" and Tech Evaluation in September as steps toward serving with JAARS

Please Pray! Please pray for Michelle who has completed her training with MATA and is leaving for more schooling in mechanical skills to qualify as a missionary pilot. Please pray that God will call a new staff person to MATA who is experienced in governmental issues and will coordinate all the FAA "Part 141" foreign student needs. Please pray for me to be diligent in the task of finding additional financial partners to support our ministry at MATA. Pray for us as we represent MATA at Missions Fest. (missionsfestseattle.org)

Attend Missions Fest!
